

## Congratulations to our newly elected and reaffirmed Trustees!

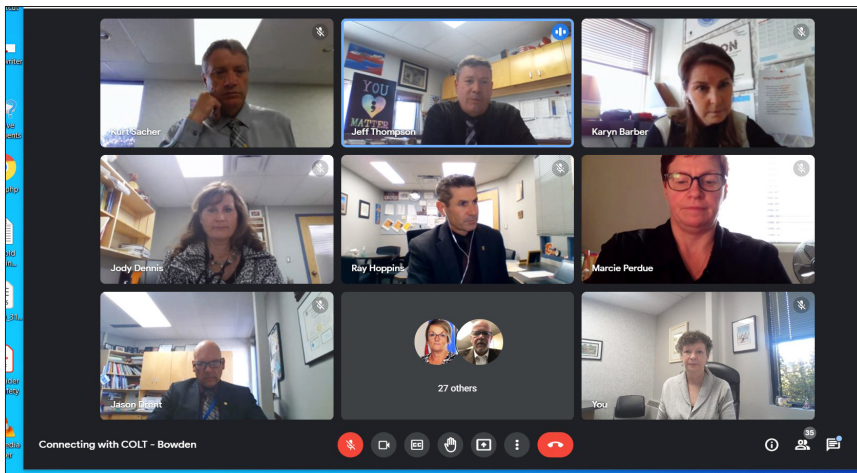

*The Board of Trustees will be sworn in at an Organizational Meeting this Wednesday (October 27), at which time they take an Oath of Office to officially become the Chinook's Edge Board of Trustees. As a matter of course during the Organizational Meeting each year, Trustees then elect a Chair and Vice Chair from among themselves.*

**Collaboration** - At the start of the school year, some of the staff from Bowden Grandview School spent a day engaged in land based learning together at Chester Lake, Kananaskis Country.

**Spooky** - Students at Cremona School have been creating amazing entries for their library cardboard haunted house contest. Librarian Loren Ross was expecting to get 10 entries and she has received 73 - and counting!

Connecting with Bowden Grandview School, October 12

## Connecting with COLT

For nearly a decade, the Central Office Leadership Team (COLT) has met with staff to share an informal conversation about how things are going in their schools. These have traditionally been held in person, involving either individual schools or an entire community of schools. In these days of restrictions, the sessions have moved online and they have been condensed in length to respect the additional time demands school staff are facing.
