

## Connection, innovation, direction

### Leadership

The recent ULead Summit of Educational Leadership conference in Banff focused on the theme of Re-Imagining School Leadership. Several Chinook's Edge administrators and department leaders joined hundreds of school leaders from around the world at the annual event. While the topics and sessions were high quality, they were matched by a long overdue opportunity for administrators to network and collaborate.

### Magic of Movement

Grade 2 student Hunter Bourne takes a few minutes with his teacher, Chance Seely, on stationary bikes at École Olds Elementary School to check in with one another. The bikes are situated throughout the hallways and in classrooms as a safe place for students to move, reset and recharge for their busy days of learning.

### Alberta Forest Week

As has been a tradition for over 60 years, the Alberta government is celebrating Arbor Day by delivering seedlings to every Grade 1 student in the province. The tiny trees are organized in Division Office each year and sent to schools to help Grade 1 students learn the value of conservation, stewardship and the environment. Rod MacLean, Health and Safety Coordinator, was on his way to a school visit and took the Olds Koinonia and River Valley school deliveries with him!

Seeing the world as others do

This is empathy.

Before you weigh in, tune in.

#GetReal  
mentalhealthweek.ca

May 2-8 is the 71st annual Mental Health Week in Canada

### Our journey together

May 2-6 is Education Week and COLT extends a heartfelt thank you to everyone in Chinook's Edge for moving learning forward and scouting for joy at every turn!
